

POTHOLES CROPPING UP?

ePatch® HIGH-PERFORMANCE
COLD MIX

Potholes are trouble for travelers and budgets alike.

Fill them once and for all with ePatch, a made-to-last cold mix, and avoid the expense of reapplication.

Enhanced Quality For More Durable Results.

ePatch is a high-performance cold mix product from Ergon A&E that is more durable and of a higher quality than traditional cold mix products.

REMAINS PLIABLE FOR MONTHS

This useful product stays pliable for months while in a stockpile, allowing continued use over time and projects.

INCREASES SAFETY

This solution protects workers, keeping them off the road and reducing their exposure to traffic by eliminating the need for return maintenance.

REDUCES COST

ePatch lowers the overall cost of road repair because potholes can be filled once, eliminating the cost associated with re-application that is common with conventional patching materials.

MAXIMIZES BUDGET

Gain premium cold mix performance at a commodity cold mix price.

Used for leveling courses or pothole repair, the advanced formulation ensures that patches last longer, requiring less maintenance.

"It keeps me from having to go back and re-patch holes, so my men can stay focused on other jobs."
